**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Applicant's representative was informed that due to the adverse outcomes of Interference Nos. 104825 and 104829, prosecution on claims 44, 48, 50, 52, 89 and 90 would have to be re-opened unless these claims were cancelled. Consequently, no extension of time is required for this amendment. Authorization for this examiner's amendment was given in telephone interviews with John Kilyk, Jr. on 14 Oct. 2005 and Melissa Kolom on 17 Oct. 2005.

The application has been amended as follows:

Claims 44, 48, 50, 52, 89, and 90 have been cancelled.

The claims have been re-ordered as follows: 53-60, 73-80, 91-94, 63-70, 81-88, 95-98. They will be numbered in this order in the patent.

The following is an examiner's statement of reasons for allowance:

The provisional rejections for obviousness-type double patenting over copending application Nos. 08/258,416; 09/261,922; and 09/934,207 are withdrawn since these applications have not been allowed and are still under prosecution. MPEP 804, paragraph (1)(B).

A terminal disclaimer over U.S. Pat. No. 5,994,106 has been filed and recorded. As a result of Interference No. 105046, all claims in the '106 patent were held to be unpatentable to the patentee and the patent is no longer in force. Consequently, the basis of the rejection for obviousness-type double patenting over the '106 patent in this application no longer exists. Applicant should consider a filing a petition under 37 CFR 1.182 to seek nullification of the terminal disclaimer over the '106 patent, as was filed and granted in co-pending application 08/258,416. See MPEP 1490, paragraph (A).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott D. Priebe, Ph.D. whose telephone number is (571) 272-0733. The examiner can normally be reached on M-F, 8:00-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dave Nguyen can be reached on (571) 272-0731. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
